This range of furnishings was created to provide sophisticated, practical solutions for executive workspaces, individual offices, meeting rooms, and prestigious corporate spaces.

The Mood series consists of desks in various shapes and sizes, carefully designed in every detail, as well as drawer pedestals, cabinets, and bookcases.

Tables

The tables are supported by a single steel structural column with a disk base and chrome-plated finish. The tops feature a natural wood finish and careful detailing, including rounded corners and bevelled edges in solid wood.

They are available in various sizes and shapes, including round, square, elliptical, rectangular, and with the shorter sides as semicircles. The base with a central column varies according to the size of the top.

The cable management system consists of the column serving as the cable riser, cables trays mounted below the top, and access hatches mounted flush with the top, positioned either to one side, at the centre, or in a symmetrical pair with respect to the base.

Containers

The containers of the Moodway series consist of low cabinets and bookcases characterised by minimalist forms and smooth wood finishes. They are available in open versions or with folding doors.
